Student thesis  
Curriculum Vitae

**OpenAIRE**

Use this option to import research outputs in the OpenAIRE CERIF profile XML format. OpenAIRE is an organization dedicated to shifting scholarly communication towards openness and transparency and facilitate innovative ways to communicate and monitor research.

**BibTeX**

BibTeX is a tool and a file format which are used to describe and process lists of references, mostly in conjunction with LaTeX documents.

**RIS**

RIS-format is an interchangeable, tagged format for expressing bibliographic citations, supported by a wide range of reference software (e.g. Reference Manager, EndNote and RefWorks) and research databases (e.g. Web of Science, Scopus etc.)
